### Project Value:

\$10,000,000

### Completion Date:

On Going

**Completed on time?** To date, Yes

**Completed within budget?** To date, Yes

### Wilmington, Delaware

Hudson was selected by the Diamond State Port Corporation to perform an evaluation of the condition of Berths 5 and 6, make recommendations for rehabilitations and/or renewal, prepare construction documents and perform construction management services.

Hudson is currently in the first phase of the project, which includes performing an underwater inspection, preparation of a report of findings, with recommendations and cost estimates. Engineering calculations are currently being performed to evaluate proposed loadings of the existing berths.
